Title Quality Policy				

## ❖ Quality Policy

*Our business is manufacturing Compressed Stabilised Earth Blocks. It is vitally important to our customers that our services and the items we supply conform to the agreed specification and always behave in a predictable manner while complying to the relevant regulations standards and norms.*

*The leadership of InnoBlock believes the best way to ensure this is with the quality management system and simplified procedures that are well understood by all our employees.*

*Our company undertakes to make certain that our quality management system meets these criteria and that all employees will continually strive to uphold the system efficiently and continually improve it.*
